

FRANCK FREYMOND
Executive Vice President, Chief Audit & Risk Executive
STMicroelectronics

Franck Freymond is STMicroelectronics' Executive Vice President, Chief Audit & Risk Executive, and has held this role since March 2019.

Freymond started his career with Credit Suisse Group in 1992 as credit analyst/assistant account manager and then became manager in charge of financing solutions for specific segments of Swiss Corporates. In 2000, he joined EY (Ernst & Young) in Switzerland as manager in the Risk Advisory service line and was promoted Regional Leader and member of the service line leadership team in 2004. In those roles, Freymond advised multi-national companies globally in a wide cross-section of industries in governance, risk management, internal control, and internal audit matters. In 2010, he joined STMicroelectronics as Group Vice President, Chief Audit Executive in charge of the Corporate Audit function. Freymond's scope of responsibilities was subsequently extended to Enterprise Risk Management and Resilience Management, including business continuity and crisis management.

Freymond served as Chairman of STMicroelectronics' Corporate Ethics Committee from 2012 to 2018.

Franck Freymond was born in Morges near Lausanne, Switzerland in 1968. He holds a Master of Science in Management from HEC Lausanne (Switzerland) and various professional certifications in internal audit and risk management assurance.
