

## **VINCENT FRAISSE**

**Executive Vice President, RF & Optical Communication Sub-Group  
Microcontrollers, Digital ICs and RF products Group  
STMicroelectronics**

Vincent Fraisse is STMicroelectronics' Executive Vice President, RF & Optical Communication Sub-Group General Manager and has held this position since January 2026.

Fraisse started his career as an analog and RF design engineer in France Telecom CNET before joining ST in Italy in mid-90s. In 2009, he joined ST-Ericsson and rose through the technical ladder to become a Fellow in charge of System Architecture and Application processors. In 2012, Fraisse re-joined ST and became General Manager of the RF Communication division, addressing diverse markets, such as satellite communication, RF infrastructure and optical interconnect.

Vincent Fraisse was born in Alès, France in 1973 and holds a telecom engineering master's degree from the IMT-Atlantique and a microelectronics master's degree from the Grenoble University (UGA) in France.
