Modular Approval. Output power listed is radiated. This device must be installed to provide the minimum separation distance specified in the filing in order to meet the SAR exemption threshold listed in KDB447498 and be authorized for portable or mobile operation. Installers and end-users must be provided with transmitter installation and operation conditions for satisfying RF exposure compliance. The antenna(s) used for this transmitter must not transmit simultaneously with any other antenna or transmitter, except in accordance with FCC multi-transmitter product procedures. Grantee must provide installation and operating instructions for complying with FCC multi-transmitter product procedures and RF exposure compliance. The grantee remains responsible for continuing compliance in all final installations.
